OBJECTIVE

Seeking an opportunity to utilize skills and experience gained over the last several years for a position, which will provide new challenges and growth potential.

VIRGIN PULSE (FORMERLY SHAPEUP INC.)   MAY 2015 – PRESENT
SOFTWARE ENGINEER

Responsibilities
- ➢ Participate in the Agile Development Process and help scale the business.
- ➢ Utilize PHP and Javascript to provide a custom Wellness SAAS platform to Fortune 500 companies.
- ➢ First six months, learn proprietary platform, squash bugs, develop admin tools, write docs.
- ➢ Later months, transition to new product development team for challenge products.

Achievements
- ➢ Developed first release of three new user-generated challenges; supporting as many as 10,000 participants to compete tracking steps, exercise minutes and weight loss.
- ➢ Developed admin tools for client support team to fill support gaps, reduce the number of pushes required to onboard new clients to one, manage middle-market tier, and process manual incentives.
- ➢ Suggested and implemented architectural improvements to platform's component system.

RAM COMPUTERS, UNIVERSITY OF RHODE ISLAND   AUG 2007 – MAY 2015
STORE MANAGER

Responsibilities
- ➢ Manage and mentor student managers: purchasing, support, marketing, and database.

Achievements
- ➢ Designed and coded custom ordering system for value-added computer sales program built on PHP / CodeIgniter.
- ➢ Compiled student and sales data into marketing data (targets for services) using MySQL.
- ➢ Acquired $3.1 million in sales (FY14), $1.4 million in institutional sales.
- ➢ Met Apple's difficult requirements for quarterly sales bonuses on multiple occasions.

INDEPENDENT EXPERIENCE   LAST 24 MONTHS
DEVELOPER, PHP, LARAVEL, JAVASCRIPT

Achievements
- ➢ Social Code Sharing Laravel / ReactJS project.
- ➢ GitHub authentication and integration
- ➢ Used kanban software to keep project on track.
